

Service Technician – Schaumburg, IL

Company

Founded in 1844, KASTO today is the internationally known market leader for metal cutting saws and automated storage & retrieval systems. Our expertise in manufacturing and sales of band saws, circular saws, plate and block saws, and hacksaws makes us the ideal partner for all metal cutting applications. Automated storage & retrieval systems for bar stock and sheet metal, together with combined systems for storing and sawing long bar products are important parts of our worldwide leadership role. From our US headquarters in Export, PA (near Pittsburgh), we supply our valued customers with saw and storage technology "made by KASTO".
